Nourishment Note

Salmon

Salmon is a rich source of omega-3 fatty acids. This type of fat helps to reduce inflammation common with asthma. It's also a good heart-healthy protein source.

Garlic

Garlic is an anti-inflammatory food to help protect healthy cells from cancer-causing carcinogens.

Thyme

Thyme is known as "nature's throat lozenge". It may help with a sore throat, cough, and congestion that can be common with asthma.

Rosemary

Rosemary is a powerful herb. It may help aid digestion and help to improve immune function. In patients with asthma, immune function can sometimes be low.

Instructions

1. Preheat Broiler

Preheat the broiler. Line a baking sheet with aluminum foil. Spray the foil with non-stick cooking spray.

2. Mix Mustard Sauce

In a small bowl, mix together the garlic, fresh herbs, white wine vinegar, olive oil, and mustards. Set aside.

3. Broil Salmon

Arrange the salmon on the baking sheet. Broil for 2 minutes then carefully remove from the oven.

4. Add Sauce to Salmon

Spread the mustard sauce over the fillets. Continue broiling until the salmon is cooked through and the top is golden brown, about 4-5 minutes. *Careful, the salmon will burn if under the broiler too long.*

5. Serve & Enjoy

Serve the salmon immediately with lemon wedges.
